

Integration Solutions made Easy

InterWeave Smart Solutions

SMART ECOMMERCE GATEWAY

InterWeave SMART Solutions deliver powerful yet easy-to-use configurable integration Solutions, allowing seamless integration of data from applications to eCommerce to applications (one to many).

InterWeave Smart eCommerce Gateway

What is a Smart Gateway?

Smart Gateways are powerful Solutions that facilitate enterprise wide information integration of data via access to heterogeneous data sources residing on heterogeneous platforms at distributed locations. Gateways integrate various data sources and create the right data, in the right place, in the right format in the right application.

Key Attributes - InterWeave Smart eCommerce Gateway (ISEG)

A key attribute of a gateway is the ability to provide many levels of integration. In addition a gateway provides:

- **Order-Processing** - Automatic posting of eCommerce Orders to your business system.
- **Order Status / Tracking Feedback** - Post tracking and shipment status information from your central business system to your eCommerce Order Management System.
- **Inventory Updates** - Posts current inventory values to your eCommerce Order Management System from your central business system.
- **Automated multiple eCommerce** entries in your Solution. You add, monitor and maintain as many as you wish.

Our **eCommerce Gateway** makes integration easy, by automating the transfer of data between your eCommerce store, financial accounting system, CRM, database, etc. Orders placed through your online sales channel are retrieved and transferred to your financial application in real time or batch. The **eCommerce Gateway** synchronizes inventory, sales, customer and billing information. By providing a configurable solution, all work flow, business process logic is inherent and configurable. Specific integration timings in real time or batch load at night.

To learn more about how the ISEG can support your particular business, please contact us at 203 274 5226, email sales@interweave.biz or go to www.interweave.biz.
