

InterWeave Smart Solutions

INTELECRM(SCOUT)_QUICKBOOKS

InterWeave Smart Solutions deliver powerful yet easy-to-use configurable integration Solutions for Scout customers, allowing seamless integration of data from intelcrm(Scout) to QuickBooks.

Introducing intelcrm Solutions with Scout

Scout is the first native complete ERP Inventory and Manufacturing Control application in Intelcrm.com. With Scout, users can take advantage of wireless bar code scanners to create back room efficiencies never seen before. Integrate intelcrm (Scout) with QuickBooks, and now you have dynamic inventory information available that populates QuickBooks in real-time.

Scout Software is a leading **supply chain software / inventory management software** provider serving businesses in the [retail](#), [manufacturing](#), [distribution](#), and [medical](#) sectors. The company capitalized on the growing need for **SAAS** (software as a service) based **supply chain / inventory management applications** that can be easily integrated with a company's existing platform.

intelcrm Solutions are Different:

intelcrm Solutions deliver a complete integration process for popular business applications. Let's look at a favorite, intelcrm(Scout) and QuickBooks. With **intelcrm** Solutions, you can purchase, configure and run a customized integration process for these applications that integrate standard intelcrm(Scout) objects (Accounts, Sales Orders, Products) to all standard QuickBooks objects (Customers, Vendors, Sales Orders, Purchase Orders, Items, Inventory); configure, test, run. Or , if you need sophisticated customization – call us - we do this every day.

You don't need to be a technical resource, analyst or developer. We supply the **intelcrm** Solution, the servers, the support personnel and most important; we supply the application knowledge at a process, data and technical level through years of working with these applications — all in configurable form.
