

# InterWeave Smart Solutions

## INTERWEAVE NEWS, Q3 2009

**Welcome** to our Q3 2009 newsletter - to help you keep up with the rapidly evolving Cloud Integration Solutions marketplace.

Q3 again has been a season of firsts, with continued accomplishments, challenges and exciting news to share.

The **InterWeave Smart Solutions** is the result of the tireless efforts from our product development team. **Smart Solutions** provides a

self-service approach, selecting the objects, data entities and data relationships they want with a series of point and clicks.

**Smart Solutions** are part of the **InterWeave Solutions Portal (ISP)**, where customers can now develop integration solutions in a self-service approach; selecting the objects, data entities and data relationships they want with a series of point and clicks. **Smart Solutions** are hosted at Rackspace Managed Services and are immediately available. Go to [www.interweave.biz](http://www.interweave.biz) — top navigation bar—right side—select Login.

**Smart Solutions** deliver a complete configurable Solutions to integrate today's popular business applications; you configure, test, run. An alternative to inefficient program and consultant-based approaches, our next generation web-based Solutions are powerful yet easy to use, extremely affordable, and deploy in just days.

You don't need to be a technical resource, analyst or developer. We supply the **Smart Solution**, the servers, the support personnel and most important; we supply the application knowledge at a process, data and technical level through years of working with them - in configurable form

### In this issue:

- **[The Aria Smart Solutions](#)** — Aria Systems and Integration Technologies have partnered together to bring the Aria Smart Solutions to the marketplace. Aria\_Quickbooks and Aria\_NetSuite are currently available. Aria\_SAP is in the planning stage.
- **[SugarCRM to Salesforce](#)** — now available—complete bi-directional integration between SugarCRM and Salesforce. More coming on this.
- **[Nexternal Sage Accpac](#)**— The development team is extending the current solution for the customer by providing an automated Solution that lets the customer create, manage and monitor as many Nexternal eCommerce sites—integrated directly with Sage Accpac and Salesforce—as they wish.

### INTERWEAVE PREFERRED PARTNER

**Aria Systems, Inc. is now a Preferred Partner with Integration Technologies, Inc.**

Since 2003, Aria has provided the most sophisticated on-demand subscription billing platform available to business of any size. Having managed over a million accounts in more than 195 countries, Aria is the market leader in subscription and recurring billing solutions.

Aria's platform was designed utilizing our experience as operators of one of the largest Internet based services in the U.S. Through this experience billing billions of dollars on behalf of some of the largest corporations in America, we realized that billing, possibly more than any other application, required experience to set up correctly.

Aria's on-demand system is like an in-house team of billing experts and with Aria's cost-effective pricing model you pay only for the services you need and maintain affordability as your customer base grows. You can accelerate time-to-market with implementations that can be complete in days to weeks rather than months or years for traditional billing software.

Integration Technologies and Aria have partnered and created the Aria\_Quickbooks and Aria\_NetSuite Smart Solution, bringing a series of transactions that create journals in Quickbooks and NetSuite.

For more information, contact Integration Technologies at the information below.

**Now available: [Aria Quickbooks Data Sheet](#)**
